

## PRODUCT SPECIFICATION

**Product Name :** LED Flood Light

**Part No :** LEFSC-1000N

**Approval No:** 20150903001

## 1、 Features:

- Full waterproof design
- High transmittance tempered glass, transmittance 93%
- Multiple choices for reflectors:  $90^{\circ} \times 50^{\circ}$ ,  $90^{\circ} \times 10^{\circ}$ , meet the requirement of professional light distribution.
- By riveting the heatsink to the fins, make the incomparable heatsink housing, The heat from the LEDs is transformed to the fins with massive dissipating area by the 12X8mm heatpipes, reducing the temperature of the LEDs rapidly and extending the life span.
- Over Current, Over Voltage, Over Heat, Thunder Protection
- Choice of correlated color temperatures
- Long lifespan for LED 50,000 hrs
- Complying with CE、RoHS, No strobing during working, Fast response (no delay) , No mercury vapour , No radiation, No UV, No damage with frequency switching
- IP Rating: IP65

## 2、 Application area:

Complete lamp can replace high pressure sodium lamp over 1500-2000W. It can instant start, and has long life span, low consumption of energy, and polluting-free. It can be widely used at the stadium, golf course, wharf, square, etc

### 3、Product Dimensions:

Attentions:

- 1、 All dimension units are millimeters.
- 2、 All dimension tolerance is  $\pm 1\text{mm}$  unless otherwise noted.

### 4、Product exploded pictures:

## 5、Product Specification:

Input voltage: AC100V~240V

Frequency range: 50Hz~60Hz

Total harmonic distortion:  $\leq 9\%$

Power factor:  $\geq 0.9$

Power efficiency:  $> 85\%$

System consumption: 1000W

LED package: CREE XTE

LED consumption: 1000W

LED Working voltage: DC33~39V

LED quantity: 440PCS

Driver: 4pcs Meanwell HLG

LED luminous:  $> 80100$  lm

LED luminous efficiency: 85~95 lm / W

CRI:  $> , 0$

LED Junction temperature:  $\leq 85^{\circ}\text{C}$

Operational condition:      Temperature     $-40^{\circ}\text{C} \sim 60^{\circ}\text{C}$

                                 Humidity             $10\% \sim 90\% \text{RH}$

Storage temperature:  $-40^{\circ}\text{C} \sim 85^{\circ}\text{C}$

Working life-span:  $> 50,000\text{H}$

Beam angle:  $90^{\circ} \times 50^{\circ}$ ,  $90^{\circ} \times 10^{\circ}$

IP Grad: IP65

Housing: Glass and Al alloy

Mounting Height: Suitable for 10~50m height

3 Years warranty

## 6、Connect wire:

- Blue—Neutral
- Brown—Line
- Yellow/Green—Ground

## 7、Photometry (AAI Figure CCT:5500K):

## 8、Installation:

- Installation tool: A adjustable wrench group.
- Installation Steps:
  - ① Remove the hexagonal screws on the floodlights handle, then adjust the angle you need, finally Tighten Axle Screw, and Locate Screw Tighten Axle Screw, and Locate Screw
  - ② Connecting the power line of LED Flood Light to the power supplier, finish the installation procedure
- The installation notices:
  - ① No necessary using other devices for LED Flood light installation such as stabilizer, regulator and so on
  - ② Opening the light and lifting the buckle is unallowable.  
Soaking in the water is unallowable

**9、Warning:**

- Do Not Use Other Devices for LED Floodlight Installation Such as Stabilizer, Regulator ...etc
- Do Not Open the Light Engine
- Do Not Soak the Floodlight into Water
- Do Not Light up the System Without Grounding
- Do Not Use Dimmer
